

SHANGRI-LA
HERITAGE

The legend was born in the 17th Century, as the first European travelers explored Tibet, and tells of “Shangri-La” as a mythical valley, a mysterious and unreachable place, which evokes pure human desire and deep spirituality.

The name retraces the dream for explorations on motorcycles hunting for beautiful and forgotten spots, in a word, searching for the Shangri-La.

Heritage comes from the need to create iconic and timeless garments, inspired by the past.

Designed for Bikers, Rockers and Gentlemen.

Working hard to deliver high quality products from Northern Italy.

The company founders are always on the road looking for new adventures, discovering places, meeting up people who share their interests and getting to know new fabric types and manufacturing techniques, valuable to keep their products up-to-date.

“By riding our motorbikes through Europe we come across sensational places and interesting heads. We tie up pleasure and business to offer the best quality-goods”, ends in style Daniel Verzeroli.

“Aviatore” B-3 Seal Shearling Jacket

Inspired by early 40s type B-3 Flight jackets from the Second World War and revisited with a unique Italian touch, the “Aviatore” B-3 Shearling Jacket represents an authentic garment made of Italian Shearling Sheepskin reinforced with leather trimmings in vegetable tanned Lambskin from Tuscany (Italy).

The Shearling Sheepskin is the perfect natural insulator for cold weather.

The soft sheep wool encases your body, ensuring maximum body warmth retention and at the same time wicking away excess moisture when the body generates it.

The bikers who sport the B-3 Jackets on cold winter road trips rely on their rugged and tough exteriors as much as they do on their soft and pliable interiors. The B-3 Jacket is a perfect reflection of their

bravery and determination, providing much needed protection and comfort.

Designed for Bikers, Rockers and Gentlemen.

Each and Every Jacket is Made to Order, individually handcrafted in Northern Italian Alps.

Possibility of Made-to-Measure.

“Stelvio” Covert Wool Dispatch Rider Coat

Inspired by late 10s Dispatch Rider coats from the First World War and revisited with a unique Italian touch, the “Stelvio” Dispatch Rider Coat represents an authentic garment made of 100% Covert Wool 15 Oz by Vitale Barberis Canonico, the oldest woolen mill in the world (Biella, Italy).

The leather trimmings made with vegetable tanned Lambskin from Tuscany (Italy).

Vitale Barberis Canonico was born in 1663 and located in Biella (Northern Italy), the epicenter of the Italian wool production. With over three centuries of documented history, and a reputation for the highest quality, it represents the Italian Heritage at its best.

The Covert Wool is a worsted batavia weave, of winter weight, clear-cut and compact. This material was primarily used for apparel worn by hunters and riders, created with the specific purpose of withstanding all kinds of weather, mud, and bush-encounters during any good hunt.

A double-breasted front provided an additional layer of protection to the chest, with a storm flap designed to keep water away from the body. The most distinctive feature of the coat, however, remains the slanted chest “Map” pocket used by the dispatch riders to carry the messages.

The lining is made of “Espresso Coffee” color 100% warm flannel cotton,

and the leather collar-tab closes the neck to keep you warm during winter and cold trips.

The attention to detail makes it a rare and authentic Coat Hand Made in Italy.

Designed for Bikers, Rockers and Gentlemen.

The name “Stelvio” is a tribute to the legendary Mountain Pass in Northern Italy, the best Road of All Time.

Every Coat comes in a high quality 100% organic natural cotton Bag, laced with havana rope and with screen printed logo.

Possibility of Made-to-Measure.

“Toro Seduto”

Indian Head Patch

A tribute to the Native Indian Chief named “Toro Seduto” (1831-1890). During the explorations for gold hunt in the Black Hills of North America in 1874, he came into increased conflict with authorities.

In 1890, he was shot and killed while being arrested by U.S. and Indian agents, fearful that he would help lead the growing Ghost Dance movement aimed

at restoring the Sioux way of life.

“Toro Seduto” is remembered for his great courage and his stubborn determination to resist white domination.

Hand designed and crafted in Italy, this patch has been created to guide the explorers during their trips hunting for unforgettable places and moments, in a word, looking for the Shangri-La.

- Old world lock stitch technique
- Size: 19 x 21 cm
- Sewing for a permanent application
- Made in Italy

“Sparviero

Thunderbird”

Patch

The Thunderbird symbol is one of the most dominant icons in Native American Indian culture and art.

As a symbol of creation and protection, the Thunderbird marks the separation between the heavens and the earth, with the ability to either create or destroy.

Born in the mountains of Northwest and Symbol of Thunder, Lightning and Storms, the Thunderbird will protect every Rider on the Storm.

Designed by the American artist Alex Roka and hand crafted in Italy.

- Old world lock stitch technique
- Size: 22 x 28 cm
- Sewing for a permanent application
- Made in Italy
